

Voters Against Billions to Israel

In 2024 Congress gave Israel \$23 billion, which works out to \$63 million per day. More of our tax dollars have been sent to Israel, the size of New Jersey, than to any other country on Earth. Israel is using our money to kill massive numbers of men, women, and children in Gaza and beyond.

It's time to tell our elected officials to stop sending our tax money to Israel!

I will only vote for candidates who pledge to oppose sending my tax money to Israel.
